

## Music (Week 6) – April 26-May 1

Do you like pizza? Good! This week, we are going to use GROOVE PIZZA to make music. Let's get started!

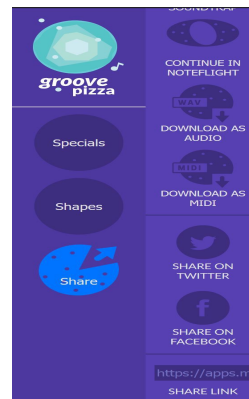

1. Click here: <https://apps.musedlab.org/groovepizza/?museid=IMMOSU6yT&>

2. Click  or use your **space bar** to listen to the music. Press again to stop.
3. Create your own music: use your **mouse** to click on the **circle**. You are making your own pizza slices now! Clicking creates new shapes that will change the sound of your music.

4. Click  or use your **space bar** again to listen to the music. Press again to stop.
5. To share, click **Share**, then choose from “**download as audio**” or “**share link**”. Do not choose any of the other options to share.

6. Extra: try clicking  and other spots to make more music.
7. Please write me at [jay.sager@ps158.net](mailto:jay.sager@ps158.net) or Google Classroom if you have any questions!
